Evolugen, a renewable energy company based in Gatineau, Que., is ...

The project can store 250 MW of electricity, making it the largest battery energy storage system proposed in the Ottawa area so far. A 250 MW battery can supply enough power at one ...

A city committee passed new regulations Thursday that lay out the ground rules for companies looking to build battery energy storage facilities in Ottawa, but residents are split on ...

Facilities that successfully demonstrate their capabilities will be contracted by mid-2024, with operations starting on or before May 1, 2028. The Ottawa BESS 2 Project, among other electricity storage sites, ...

More than 60 speakers lined up Thursday to speak to the City of Ottawa's Agricultural and Rural Affairs Committee over a proposal to build a vast electrical storage facility in West Carleton.

Evolugen, a renewable energy company based in Gatineau, Que., is looking to build a facility in South March after its initial plan to build one in Fitzroy Harbour failed to get city approval.

Ottawa city councillors voted to support a controversial battery energy storage system (BESS) facility in West Carleton despite the objections of rural councillors and residents who voiced...

In West Ottawa, a proposed energy project will address Ontario's growing need for electricity and promises to stabilize the province's energy grid, preventing potential blackouts.
