As the nation aims to achieve 25% clean energy by 2030, solar inverters - the brains behind solar panel systems - are becoming hot commodities. Let's explore what's sparking this growth and how ...

This 50kW solar power system is ideal for off-grid communities that rely on renewable energy for essential services, such as water pumps, health clinics, schools, and residential lighting.

Looking for reliable solar inverters straight from the source? Phnom Penh's inverter factories now offer direct sales to businesses and households, slashing costs while boosting energy independence. ...

In Cambodia's rapidly growing solar market, DC inverters have become the backbone of modern energy systems. With over 62% annual growth in solar installations since 2020 (Ministry of Mines and ...

This energy storage cabinet is a PV energy storage solution that combines high-voltage energy storage battery packs, a high-voltage control box, an energy storage PV inverter, BMS, cooling systems (an ...

This article explores the top solutions tailored for Cambodia's capital, focusing on performance metrics, cost efficiency, and real-world case studies. Discover how advanced battery technology can address ...

Our customer base is divided into several market sectors in solar home systems for rural electrification, solar hot water, water pumping, industrial batteries, navigational lighting, and grid tied systems.

I.M.B (Cambodia) Group Plc. is based in Phnom Penh Cambodia. We are a professional supplier of advanced solar energy system, lithium battery, carbons battery energy storage systems, solar on ...
