Learn how to finance your solar panel system with options like cash purchases, solar loans, and PPAs to meet your budget and energy goals.

Buyers can either purchase a system outright or obtain a solar loan. When you own a system, you receive solar tax credits and incentives, but you won't if you lease.

The truth is, there are only two ways worth seriously considering for the vast majority of farms and rural businesses looking to install a solar panel system. But we'll take a look at all five options just so you'll ...

In the lease model, a customer signs a contract with an installer/developer and pays for the use of a solar system over a specified period of time, rather than paying for the power generated.

Compare solar loan options, rates, and lenders. Expert guide to financing solar panels with government programs, credit unions, and banks. Updated 2025.

o Find out how long the warranty for the solar panels lasts, and think about whether you will be able to pay of the loan while the panels are still under warranty.

Buying your solar panel system outright delivers the highest long-term returns. You'll avoid interest payments, own your system from day one, and keep your investment working for you over ...

How does a solar PPA work? When you sign up for a solar PPA, you're typically entering into a contract for 10-25 years. You agree to purchase the power generated by the solar system for...
