---

Expansive arrays of deep blue solar panels now stretch across the plateau, harnessing abundant sunlight to generate clean energy. Beneath their shade, pasture grass flourishes, and ...

China recently unveiled its largest single-capacity solar farm, the Mengxi Blue Ocean Photovoltaic Power Station, in the Gobi Desert. This massive solar installation has an installed ...

A new study conducted at the Wuwei photovoltaic plant, a GMPV system located in the Gobi desert in Gansu province, has provided valuable data on how these installations affect the ...

China just connected its largest single-capacity solar farm built on a former coal mining area, which is in the Gobi Desert, to the grid.

The Mengxi Blue Ocean PV Power Plant Project in Gobi desert is China's largest single site solar power plant.

China has achieved a groundbreaking advancement in renewable energy technology with the recent inauguration of the world's first solar-thermal power plant, which employs a dual-tower ...

This new plant is designed to be cheaper and more efficient than traditional solar thermal power stations, making it a major step forward for renewable energy. The power station is located in ...

Amid the vast expanse of the Gobi Desert in Jinta, Gansu Province, rows of solar panels are transforming once-hostile sands into a thriving "blue ocean"...
