Title: Regional solar power generation projects

Generated on: 2026-03-06 14:10:49

Our goal We are focused on pinpointing the best regional location for integrating solar energy, wind power, and transmission projects. This process leverages official land-use and thematic ...

Interactive Data Table: View and sort all filtered projects, export them to CSV, and review attributes like plant name, county, generation type, and planned year.

The Global Solar Atlas provides a summary of solar power potential and solar resources globally. It is provided by the World Bank Group as a free service to governments, developers and the general ...

These pages should help utilities, financiers, manufacturers, and anyone interested in renewable-energy options to find information on the growing number of concentrating solar power projects around the ...

This report is posted every 5 minutes and includes system-wide and geographic regional 5-minute averaged solar power production for a rolling historical 60-minute period.

Committed to Restoring America"s Energy Dominance.

To access additional data, including an interactive map of global solar farms, a downloadable dataset, and summary data, please visit the Global Solar Power Tracker on the Global Energy Monitor website.

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development.
