Custom Lithium Battery Packs We design and manufacture custom Lithium (LiFePO₄) battery packs from 3.2V to 900V and from 4 Ah to 3000Ah, for several applications:

The cells in the 72v lithium battery pack are 18650 batteries, 18 mm in diameter, 65 mm in length, o-type cells. It can power scooters, boats, solar applications, and other electrical equipment that need ...

At BatterySpace, we provide all your needs for custom batteries. We carry a full line of different kinds of batteries, as well as top brand batteries in our US warehouse.

We are a full-service custom battery manufacturer with full design and engineering capabilities. Our team has extensive experience with lithium-ion, lithium polymer, nickel metal hydride, nickel ...

A good quality lithium-ion battery pack will typically weigh between 10kg and 15kg per kWh of usable capacity so considerably less than a equivalent lead-acid pack but a typically residential battery pack ...

Whether you need a standard 18650 configuration or a fully customized lithium-ion solution, our team will create a reliable, high-performance battery pack designed to power your products safely and efficiently.

Confused about selecting the right Russian lithium battery pack? This guide compares key features, industry applications, and performance metrics to help you make an informed decision.

With over 20 years of experience, NPP Power specializes in custom lithium battery pack manufacturing. We provide tailored energy storage solutions that ensure efficiency, safety, and sustainability.
