If you are unable to scan the barcode, you can insert the inverter connection details manually by clicking the link at the bottom. As outlined in the app, move the red ON/OFF/P switch to the "P" position and ...

How do I find out the serial number of the inverter? On the box's side or the inverter's side. For more information, please email [service@opti-solar](mailto:service@opti-solar)

The PWRcell Inverter connects PV Link(TM) optimizers and PWRcell Batteries to form the PWRcell system for grid- interactive solar-plus-storage. Upon the loss of utility grid power, PWRcell Inverters ...

If you have an inverter with a serial number for the lower Communication Unit (CU) and a different number for the upper Power Unit (PU), register your product using the serial number shown ...

The serial number, usually ten digits long, is indicated on the type label on the front cover of the inverter. Alternatively, the serial number can be read off via a data logger:

A serial number allows a company to identify a product and get additional information about it for replacement or to investigate it. For our inverters we may require a serial number to ...

The serial number is your Site ID - a 7 digit number sequence - which can be found on the SolarEdge app, under the Site Details menu item. See the following example:

2G Single inverter 34-----2.5kW single phase Grid-tie PV inverter 35-----3kW single phase Grid-tie PV inverter 36-----3.6kW single phase Grid-tie PV inverter 37-----4kW single phase Grid-tie ...
