Exceptional low-light performance and high sensitivity to light across the entire solar spectrum. 25-Year limited warranty on power output and performance. 5-Year limited warranty on materials and ...

Monocrystalline Solar Panels are manufactured in 60, 72, and 96 cell configurations with a solar efficiency between 15-25%. Monocrystalline Solar Panels have typical heights of 64", 76.5" ...

Monocrystalline panels, with efficiency levels typically ranging from 15% to 22%, can generate more electricity per square foot of solar panel area, making them ideal for installations ...

Specifications are subject to change. Parameters are rated at standard test conditions (irradiance of 1000W/m², AM 1.5, cell temp. 25°C).

Mechanical data Number of cells and cell type Dimensions: length x width x height 60 Mono crystalline solar cells (156 mm x 156 mm) 1640 mm x 990 mm x 35mm Electrical data at 800 W/m², NOCT, 1 ...

Explain Model No 450W 120PCS Remark: 450W is most common model. 450W Note: This publication summarizes product warranty and Specification which are subject to change without notice

Technical specifications for both the Monocrystalline & Polycrystalline range of products can be downloaded in pdf format.

Monocrystalline solar panels deliver exceptional performance of up to 25% thanks to their construction from a single silicon crystal. The use of pure silicon creates a uniform atomic structure ...
