Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

Absen's Cube air cooling battery cabinet is an innovative distributed energy storage system for commercial and industrial applications. It comes with advanced air cooling technology to quickly ...

LiFePO4 100kw 215kwh air-cooled energy storage cabinet offers high-capacity, safe, and efficient lithium battery storage with advanced thermal management for commercial and industrial applications. All-in ...

The system offers flexible configuration, compatibility with most EV brands, and is suitable for various industrial and commercial applications such as microgrids and solar storage.

AZE's Our air-cooled C& I BESS Energy Storage Cabinet is the perfect solution for your business. With advanced air-cooling technology, scalable design, and smart energy management, our system ...

The Symtech Solar Battery Energy Storage Cabinet (MEG 100kW x 215kWh) is a fully integrated, PV-ready hybrid energy storage solution designed for both on-grid and off-grid applications.

The compact design of the cabinet allows for easy installation and space optimization. With a capacity to store solar power, reducing their reliance on traditional power sources.

Designed for medium-scale applications, it offers a reliable and efficient solution for storing solar energy and supplying consistent power, even in fluctuating grid conditions.
