On Monday Trump signed his latest executive order directing federal agencies to strengthen provisions in the One Big Beautiful Bill that repeal or modify tax credits for solar and wind ...

Mr. Wright and President Trump have been strongly critical of renewable energy, which former President Joseph R. Biden Jr. championed as a way to address climate change. The energy ...

New wind and solar power installations, and the cheap, clean energy they provide to America, may not survive the Trump administration.

An NPR/Floodlight investigation found that a longtime Republican insider is stoking solar opposition by spreading bad information about health and environmental risks. Her influence is growing.

The plan, which commits to only 3 GW of solar power, has been described as insufficient and shortsighted by numerous stakeholders. The Southern Alliance for Clean Energy (SACE) is ...

Solar energy is often criticized for its intermittency and inefficiency in meeting the demands of a consistent power supply. The primary concern with solar power lies in its reliance on ...

In declaring an energy emergency Monday, Trump left out solar and wind in a definition of energy resources that should be tapped, emphasizing fossil fuels, biofuels and geothermal power.

Enormous subsidies for solar and wind generation technologies are proving much more expensive than advertised. They also carry hidden costs and burdens on the grid, most recently seen ...
