What is a foldable container?

Such foldable containers are compatible with the normal ISO-approved TEU or FEU and are strong enough to be placed anywhere on a shipboard stack. Any number of containers from 2 to 5, can be folded and stacked in such a way to form a regular container size for transport or storage.

Do Empty shipping containers clog roads and ports?

Empty shipping containers clog roads and ports. Staxxon's foldable containers -- which can be stacked in bundles -- are one solution to this.

Why are empty containers a problem?

Empty containers account for a major part of global container traffic. An estimated 40% of containers in circulation around the world are said to be empties. From time to time, empty containers clog up the world's ports and container yards causing container shortages and an increase in freight rates at other locations.

What is a dedicated shipping container?

Dedicated shipping containers are used for the transport of general cargo and cargo that is temperature-sensitive. The International Maritime Organization (IMO) introduced standardization of containers in the late 1960s' aimed at bringing consistency in the loading, unloading, and transportation of such containers.

COLLAPSECON is the next evolution of shipping containers - a fully automated collapsible container that will improve operational efficiencies, deliver economic savings and reduce environmental impact ...

Reusable bulk containers eliminate all corrugated and plastic strap waste, reduce the amount of shrink wrap needed, and eliminate the need for wood pallets. They can be used hundreds ...

Reduced freight costs, the increased upfront cost of foldable containers, and questions on their durability are bound to bring hesitancy to the mind of customers.

Enhance your logistics operations with our folding large containers for non-palletizable loads. These durable and sustainable containers consist of a base, sleeve, and lid, and offer high folding rates to ...

We design foldable intermodal shipping containers that exceed ISO and CSC standards, and the systems needed to fold them standing upright in bundles, safely and quickly.

# Support for Off-Network Customers Using Foldable Containers
