---

Test the battery packs in end of line (EOL) production for a comprehensive Pass/Fail check, including mechanism assembly, pressure insulation, BMS communication, internal high voltage relay parts, ...

CM Envirosystems specializes in manufacturing robust battery testing chambers for optimal testing of lithium-ion batteries, ensuring maximum safety and performance.

With a focus on OEM services, we work closely with manufacturers to ensure that our cabinets meet your specific requirements, offering customization that aligns with your brand's unique needs, ...

Explore our range of lithium-ion cabinets, meticulously engineered with cutting-edge fireproof battery storage technology, ensuring a secure and reliable solution for energy storage.

We provide the overall test equipment solution for both lithium-ion consumer batteries and lithium-ion EV battery packs and modules, which comply with the relevant international test standards, such as IEC ...

This section provides an overview for lithium battery testing equipment as well as their applications and principles. Also, please take a look at the list of 16 lithium battery testing equipment manufacturers ...

Compare leading battery testing equipment manufacturers and find the right tester for EV, lithium, and lead-acid batteries with accuracy, safety, and efficiency

Our battery test chambers are designed to test Lithium Ion batteries, lead acid, Battery Managements Systems (BMS), battery packs, modules, battery cells, and more. Our battery test chambers also ...
