Why do you need vinyl wall panels for shipping containers?

These conditions in shipping containers make the atmosphere quite difficult. Our vinyl wall panels are manufactured to sustain such conditions. Shipping containers have more use than just transporting items. A new trend has arrived with retrofitting shipping containers into various businesses or living areas.

Are Duramax PVC panels good for storage containers?

The easy installation process of Duramax PVC panels are perfect for storage containers. Without needing a wooden backer, Duramax PVC panels screw directly into the storage container walls and interlock each other. Even if the storage container is no longer being used, you can reuse the panels by unscrewing them.

What is the best material for shipping container walls?

Plywood can be left with its natural wood grain exposed, or it can be painted or varnished for a modern finish. Diamond plate steel wall panels are an excellent choice for shipping container walls due to their durability, slip resistance, and aesthetic appeal.

What wall panel packages does bigsteelbox offer?

BigSteelBox offers a variety of wall panel packages to fit your needs. Whether you choose a plywood wall panel package for a workshop or a smartboard wall panel package for your very own office, you'll love the completed look of your modified shipping container.

PVC container wall panels from Duramax are anti-mold, moisture and impact-resistant. Duramax offers factory-direct prices and a limited lifetime warranty.
