Where can I buy a data & server cabinet?

At Cable Monkey we hold stock of a huge range of Data & Server cabinets, most available for next day delivery. Whether you need a small wall mounted data cabinet or a full specification Server Rack you'll be sure to find it here.

Should I use a 380V or 415V AC specific device?

Depending on the voltage sensitivity of the product and the variance from nominal of the actual supplied voltage, it may not be advisable to use a 380V AC specific device in the UK or a 415V AC specific device in Mainland Europe etc.

Where can I find AV/data/networking wall cabinets & shelving?

At Network-Cabs we have a full range of AV/Data/Networking wall cabinets and shelving, along with every conceivable accessory, including drawers and products for cable management.

Which 380V AC rated device should I use?

If a product is to be used in mainland Europe or Irish Republic a 380V AC rated device is ideal, but either 380V AC or 400V AC products can be used with confidence. Visit our community and get advice from experts and peers on this topic and more
