The heart of this change is located at Santa Maria di Galeria, a former Vatican Radio site that has been transformed into a solar energy hub. This project was carried out by ACEA, an Italian ...

The solar power plant is intended not only to power these antennas, but also "to ensure the entire energy subsistence of the Vatican City State," says the Pope.

In a letter titled Brother Sun and dated June 21, 2024, Pope Francis wrote, "There is a need to make a transition to a model of sustainable development that reduces greenhouse gas emissions into the ...

ROME (CNS) -- Almost a year after Pope Francis set up a commission to develop a large solar-panel array on Vatican property outside of Rome, Pope Leo XIV visited the site and the Vatican ...

Pope Francis has renewables on his mind as he says he wants Vatican City to run on solar power. To achieve his aim, solar panels will be installed on a Vatican-owned property outside...

After meeting with the staff, the press office said, the pope also toured the property where "a project for an agrivoltaic plant is being studied to ensure not only the power supply of the radio ...

We are an international project developer of wind, solar and battery storage (BESS) projects. Our activities include the planning, development and construction of these projects, as well as their ...

The project aims to meet the full energy needs of both the Vatican State and Vatican Radio using solar technology integrated with agricultural activity.
