Do EMS stations need a specific space?

Carve out specific spaces for specific uses Of course any EMS station needs adequate sleeping quarters, bathroom facilities and locker/changing rooms for both men and women - but consider what other activities happen at your station that you may not currently have a specific place for.

What is an EMS storage room?

o **FUNCTIONAL DESCRIPTION:** A dedicated storage room housing only equipment classified for use with hazardous materials. Provide sufficient floor and open shelf storage areas. o **ADJACENCIES:** Shall be accessible from the Apparatus Bay. The EMS Equipment Headquarter Fire Stations. o **OCCUPANTS:** Logistics Officer/ EMS Staff

Should EMS be compatible with a local hospital?

For EMS service, it may also be important to consult with the local hospital for compatibility between the department and hospitals to enhance the responsiveness of both facilities. If the station is permanently staffed, then station occupant comforts should be addressed.

What should a EMS Station include?

Another special space your station should include is a place for providers to exercise. Consider the specific workouts and equipment your providers are most likely to need and use. Where a firefighter might need to lift heavy weights, an EMS provider may be better served by a rowing machine, says Rodriguez.

This course was adapted from the U.S. Fire Administration, "Safety and Health Considerations for the Design of Fire and Emergency Medical Services Stations" which is in the public domain.

Police, EMS, and fire station interior design requires a specialized approach. The space must not only be practical and safe but also promote well-being in the community.

The communication base station installs solar panels outdoors, and adds MPPT solar controllers and other

equipment in the computer room. The power generated by solar energy is used by the DC load ...

Provide Spaces to Promote Rest with Individual Dorms, Safe Sleep Room  
Look For Energy Efficiency When Choosing Appliances  
Carve Out Specific Spaces For Specific Uses  
Reconsider Your Alarms and Lighting, Especially at Night  
Make Physical Fitness A Priority  
Plan Ahead For Your Power Needs  
Design Ambulance Bay Doors For Safety and Speed  
Ventilate The Ambulance Bay  
Build in Disinfection Capabilities  
Provide Secure Drug Storage & Inventory Management  
Traditionally, stations have had communal dormitories where everyone sleeps. Given different sleep schedules and habits - and snoring - those days are gone, and individual rooms are a must, says Rodriguez. This allows each crew member more control over their environment for better sleep. "One of the things that oftentimes happens is the wa...
