Green energy scams include "free" solar panel offers, bogus investment opportunities, and impostors posing as electricity companies. Scammers may fake green energy calls, knock on ...

The Federal Trade Commission is getting tired of dealing with all the solar panel scam complaints and warns consumers what to watch out for.

Legitimate solar savings come from reduced electricity bills, not from special programs or guaranteed tax payouts. You can be an informed solar shopper and increase your chances of ...

That's why we put together these tips to avoid getting ripped off when buying solar panels -- backed by expert advice. Here's how to dodge solar panel scams and identify red flags.

This article explores the most common solar panel scams, provides tips to recognize red flags, and offers guidance on protecting yourself from fraudulent solar companies.

Some people have complained that they were deceived about costs and savings, misled about loans and tax credits, and pressured by aggressive sales and marketing tactics.

Remind prospective customers that while tax credits, rebates, and incentives might be available for solar purchasers who qualify, offers for "free" or "no cost" solar panels are scams.

While you are browsing solar power companies, one of them may ...
