Can a solar generator power a home?

A few years ago, solar generators were mostly good for camping and charging your phone in emergencies. Now, you can find a solar generator that can power your entire home. In fact, you can find a solar generator that's perfect for your specific application whether it's home backup, camping, RV or off-grid living. What's In This Guide?

Where can I buy a solar generator?

The North American branch operates from Oxnard, California. While you can get a solar generator starting at \$500 here, the best-selling generator at Nature's Generator is actually \$899, and it's the Nature's Generator Elite.

How do I choose the best solar generators?

To pick the best solar generators, we tested some of these power stations for charging capacity, ease of use, weight, and different use cases. Some picks were reviewed by Popular Mechanics test editor Brad Ford, who provided input for the larger-capacity units.

Where are solar generator companies based?

The majority of solar generator companies are Chinese-based, most likely because China began research and development on solar generators in the late 1990s, a little ahead of the US market. Knowing where the company is truly headquartered does make a difference in the customer experience.

We rated and reviewed the best solar-powered generators for home backup during power outages, including models from Generac, Jackery, and more.
