Energy from the sun The sun has produced energy for billions of years and is the ultimate source for all of the energy sources and fuels that we use. People have used the sun's rays (solar radiation) for ...

Solar cells have gone on to be used in many applications. They have historically been used in situations where electrical power from the grid was unavailable. As the invention was brought out it made solar ...

The Solar Energy Industries Association (SEIA) has been at the forefront of the solar revolution for the last 50 years. As SEIA continues to fight for the expansion of reliable, low-cost solar ...

How long has solar technology existed, and how did it gain popularity in recent years? Learn more about the history of solar panels and solar energy.

Plants have been using solar energy since the beginning of time to create nutrients, and humans started taking advantage of the sun's power centuries ago. The Ancient Greeks used solar power to heat ...

Overview1960-19791800s1900-19291930-19591980-19992000-20192020so 1960 - Hoffman Electronics creates a 14% efficient solar cell.o 1961 - "Solar Energy in the Developing World" conference is held by the United Nations.o 1962 - The Telstar communications satellite is powered by solar cells.

Discover the history of solar energy from ancient civilizations and scientific breakthroughs to the first solar panel and today's advanced solar innovations.

Solar energy and home solar panels have a surprisingly long history. Humans have used solar energy in creative, beneficial, and even civilization-changing ways for more than 2,000 years.
