Our foldable container houses are waterproofed structurally, rather than using sealant like other factories do. This ensures that they will never leak throughout their lifetime.

Our folding & expandable containers use a high-strength steel frame with anti-corrosion treatment (galvanized + powder-coated) and modular insulated panels (PU/PIR options) that deliver thermal ...

Foldable container cabins are designed to be weather-resistant and water-tight. They are constructed using high-quality materials, including steel and waterproof coatings, which help to prevent leaks ...

Windy.app live wind map and wind forecast: local wind speed, wind direction, wind gusts, and more

Worldwide animated weather map with layers, precise forecasts, METAR, TAF, NOTAMs for airports, SYNOP codes from stations and buoys, and forecast models.

Windy provides real-time wind maps and accurate weather forecasts with user-friendly layers and precise spot forecasts.

Container-type energy base station: It is a large-scale outdoor base station, which is used in scenarios such as communication base stations, smart cities, transportation, power systems and other edge ...
